Bern, 21 December 2015

I. Introduction

1. This report, submitted by Switzerland on 21 December 2015, contains the information required to be reported upon the expiration of the additional period for fulfilling the commitments for the first commitment period of the Kyoto Protocol (hereinafter referred to as the true-up period),¹ in accordance with the relevant decisions of the Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol.²
2. The information contained in this report covers the period 1 January to 18 November 2015, as well as the period 1 January to 31 December 2014, in accordance with decision 15/CMP.1, annex, paragraph 20.
3. The information required to be included in the report is presented using the standard electronic format (SEF) tables in accordance with decision 3/CMP.10, paragraph 3.
4. In addition to the SEF tables, the information required to be included in the report in accordance with decision 15/CMP.1, annex, paragraphs 12–16 is presented in reports R2–R5.³

II. Information provided before the submission of the report

5. The SEF tables of Switzerland covering the period 1 January to 31 December 2014 have been submitted previously and can be found at <http://www.bafu.admin.ch/klima/13879/13880/15473/index.html?lang=en>.
6. The reports R2–R5 of Switzerland (with the file name SIAR-Reports_2014_CH_v.1.xlsx) covering the period 1 January to 31 December 2014 have been submitted previously and are part of this report.

III. Information incorporated into the report

7. The SEF tables of Switzerland (with the file names ITL_CH_2015_1_2_20151118.xml and RREG1_CH_2015_20151118.xlsx) covering the period 1 January to 18 November 2015 are part of this report.
8. The reports R2–R5 of Switzerland (with the file name SIAR-Reports_2015_CH_v.1.xlsx) covering the period 1 January to 18 November 2015 are part of this report.

IV. Other information contained in the report

9. In addition to the information presented in sections II and III above, Switzerland also reports the following information:
 - a) **Information on actions to correct discrepancies, changes to the national registry to prevent discrepancies from reoccurring and resolution of previous questions of implementation pertaining to transactions**

¹ Section XIII of decision 27/CMP.1 (Procedures and mechanisms related to compliance under the Kyoto Protocol) defines the additional period for fulfilling commitments.

² Decisions 5/CMP.1, 13/CMP.1, 15/CMP.1, 22/CMP.1, 27/CMP.1, 1/CMP.8 and 3/CMP.10.

³ Report R2 (list of discrepant transactions) provides information on any discrepancies identified by the international transaction log, and additional information required under paragraph 12 of the annex to decision 15/CMP.1; report R3 (list of clean development mechanism (CDM) notifications) provides information on any notification received by the Party from the Executive Board of the CDM, directing the Party to replace long-term certified emission reductions, in accordance with paragraphs 13–14 of the annex to decision 15/CMP.1; report R4 (list of non-replacements) provides information on any record of non-replacement identified by the international transaction log, and the additional information required under paragraph 15 of the annex to decision 15/CMP.1; report R5 (list of invalid units) provides information on the quantities of Kyoto Protocol units held in the national registry that are not valid for use towards compliance with commitments under Article 3, paragraph 1, in accordance with paragraph 16 of the annex to decision 15/CMP.1.

10. In accordance with paragraph 17 of the annex to decision 15/CMP.1, Switzerland reports that a discrepancy (DES response code 4003) had been identified by the international transaction log during the period 1 January to 18 November 2015 and/or the period 1 January to 31 December 2014. As 4003 can occur under normal circumstances due to the DES transaction message flow model, there was no need to take any action or make any change to its registry with regard to this issue.
11. In accordance with paragraph 17 of the annex to decision 15/CMP.1, Switzerland reports that no questions of implementation pertaining to its transactions have been previously identified.

b) Commitment period reserve

12. The commitment period reserve (CPR) of Switzerland is 218,554,562 t CO₂ eq. The calculation of Switzerland's CPR is contained in chapter G.2 of the "Report on the individual review of the annual submission of Switzerland submitted in 2014"⁴ and was agreed by the relevant expert review team.

c) Total quantity of units in the retirement account

13. Table 1 presents the total quantity of Kyoto Protocol units in Switzerland's retirement account at the end of the true-up period, in accordance with paragraph 49(b) of the annex to decision 13/CMP.1.

Table 1. Total quantity of Kyoto Protocol units in the retirement account

AAUs	ERUs	RMUs	CERs	tCERs	ICERs	Total
236,857,347	558,645	8,267,540	16,038,197	0	0	261,721,729

Abbreviations: AAUs = assigned amount units, CERs = certified emission reductions, ERUs = emission reduction units, RMUs = removal units, tCERs = temporary certified emission reductions, ICERs = long-term certified emission reductions.

14. The information regarding the serial numbers of the units mentioned in table 1 can be found at <http://www.bafu.admin.ch/klima/13879/13880/14489/index.html?lang=en> (see Retired CP1 Kyoto units.xls).

d) Total quantity of units requested to be carried over to the second commitment period

15. Table 2 presents the total quantity of emission reduction units, certified emission reductions and assigned amount units that Switzerland requests to be carried over to the second commitment period, in accordance with paragraph 49(c) of the annex to decision 13/CMP.1.

Table 2. Total quantity of Kyoto Protocol units requested to be carried over from the first to the second commitment period

AAUs	ERUs	CERs
5,794,523	0	1,821,654

Abbreviations: AAUs = assigned amount units, CERs = certified emission reductions, ERUs = emission reduction units.

16. The information regarding the serial numbers of the units mentioned in table 2 are part of this report (see file List of carry over units_CH.xlsx).

⁴ FCCC/ARR/2014/CHE, paragraph 82.
