Emission reduction and carbon sequestration projects and programmes Invoicing of work in accordance with the FOEN Fees Ordinance

Annex B to the communication 'Emission reduction and carbon sequestration projects and programmes'

In accordance with the FOEN Fees Ordinance, fees are charged for services rendered and decisions/rulings issued by the FOEN (FeeO-FOEN, SR 814.014). In the case of FOEN services and decisions relating to emission reduction and carbon sequestration projects and programmes carried out in Switzerland or abroad, these fees are calculated according to the volume of work involved, based on an hourly rate of CHF 140 (Art. 4 para. 1 let. c, and para. 2 FeeO-FOEN). Accordingly, the following fees apply in principle to FOEN services and decisions relating to emission reduction and carbon sequestration projects and programmes:

	Time spent [h]	Cost [CHF]
Decision on project or programme qualification (<i>first</i> decision)	10	1,400
Decision on project or programme qualification (<i>new</i> decision)	5	700
Decision on issuance of attestations; receipt of monitoring report	8	1,120
Preliminary assessment of project or programme outline	5	700
Additional administrative work required to clarify questions about the application	5	700

Description of FOEN services:

Evaluation and decision on project or programme qualification. The FOEN (*first* decision):

- ensures that the project/programme meets the conditions of Article 5 and/or Article 5a of the CO₂ Ordinance,
- sets conditions where relevant,
- makes the decision,
- enters the project/programme in its database, if the evaluation is positive.

Evaluation and decision on project or programme qualification. The FOEN (*new* decision):

- ensures that the project/programme still meets the conditions of Article 5 and/or Article 5a of the CO₂ Ordinance (*new* decision),
- sets conditions where relevant,
- makes the decision.

Decision on issuance of attestations; receipt of monitoring report. The FOEN:

- decides on the issuance of attestations on the basis of the verified monitoring report and the verification report submitted to it,
- makes the decision.

Preliminary assessment of project or programme outline. The FOEN:

- performs an optional preliminary assessment, without prejudice to the subsequent decision, of a project or programme outline as to compliance with the conditions of Article 5 and/or Article 5a of the CO₂ Ordinance,
- issues an opinion and makes recommendations where appropriate.

Additional administrative work required to clarify questions about the application:

- preparation by the Compensation Office of a list of questions for the applicant,
- examination of the responses provided by the applicant and final evaluation of the application.
