## Swiss Emissions Trading Registry reopens on 11 May 2020 / Repetition of auction (CHU2)

Dear Sir or Madam,

### Important information on the availability of the Swiss Emissions Trading Registry

- Due to the limited support possibilities in connection with the coronavirus, the Swiss Emissions Trading Registry will remain unavailable until 11 May 2020. **The registry will be available again for all users and for transactions from 11 May 2020 (approx. from midday).**
- The helpdesk will continue to have limited availability and longer response times must be expected.

### Important information for ETS installation operators

- **The deadline for the surrendering of emission allowances (30.04.2020) in the emissions trading registry is extended to 31.08.2020.**

### Important information on auctions of CHU2

- The auction from 09.03.2020 (12:00) to 11.03.2020 (17:00) was cancelled without any award on the basis of Article 48 paragraph 2 letter b of the CO<sub>2</sub> Ordinance, as the clearing price differed significantly from the applicable price on the secondary market in the EU.
- **The auction will be repeated as follows: Monday, 08.06.2020 (12:00 local time) to Wednesday 10.06.2020 (17:00 local time).** Due to the low demand for emission allowances at EU secondary market prices, the **volume for the repeat auction will be reduced to 175,000 CHU2.**
- In accordance with Article 48 paragraph 2 letter b of the CO<sub>2</sub> Ordinance, the FOEN may cancel an auction without making an award if the clearing price during the auction period differs significantly from the applicable price on the secondary market in the EU.
- Based on Section 9.4 of the [General Auction Conditions](#), the FOEN also announces the following notice: The FOEN considers a significant deviation (towards the bottom) in the low single-digit percentage range of the clearing price from the average secondary market price in the EU during the week prior to the auction period and the first two days of the auction as a significant deviation.
- **The FOEN will inform about further auctions in 2020 at the earliest in June, after the next auction.**
- For further information on auctions, we refer you to the homepage of the [FOEN](#), the [Emissions Trading Registry](#) and in particular to the [fact sheet](#) on the auction of emission allowances.

Thank you for your consideration.

Kind regards,  
Swiss Emissions Trading Registry
