<b>Summary</b>
Animal population numbers for the FAO statistics are provided by the Swiss Farmers Union (SFU). The responsible persons from the SFU are Daniel Erdin and Robert Grüter. Sometimes the FAO addresses other institutions for statistical data without informing the Federal Office for Agriculture (FOAG). Mr. Poffet from the FOAG could eventually know more about the matter (Tel.: 031 325 17 00).
See Excel file "FAO animal time series" for a comparison of FAO and GHG Inventory data (QC Tier 2 procedure).
